

Contacts & Service Providers

‘Instead of accepting what our waste is and looking for ways to get rid of it, we should be asking why waste is produced and what it could become.....treated as a resource it becomes a valuable material.’

Robin Murray, UK waste expert, 2002

It's about people rethinking what they call 'waste'. There's no such thing as 'waste' for us!

Disclaimer:

The following information is subject to change and not intended to be finite as there may be other Service Providers not listed here.

Please check the website for the most recent details of Contacts and Service Providers and inform KESAB of any alterations or additions.

Contacts and Service Providers in regional areas will be listed on the web site in due course.

'Inviting ... organisations we collect for to attend Assemblies ... has educated our students and parents ... and established valuable community links.'

Jan McFarlane, Warradale Primary School

Wipe out Waste

Your Council

Contact your Council first for information. The Local Government website www.lga.sa.gov.au provides a link to all councils.

Some Councils may offer low cost compost bins or worm farms and may be able to assist with funding for environmental or waste initiatives through community grant schemes. Waste or Environment Officers may know of initiatives that support school waste reduction programs.

List your school's local council contacts here:
